

School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

School Vision and Mission

YVES Vision

Yucca Valley Elementary School empowers and equips students to reach their highest personal and academic potential to pursue a limitless future.

YVES Mission Statement

The mission of Yucca Valley Elementary School is for students, staff, parents, and community members to work together to prepare our students for the future. We recognize individual differences while teaching a consistent progression of skills, knowledge, and values that enable students to be successful, productive citizens. Knowledge is GOLD!

School Profile

Yucca Valley Elementary School is located in the western portion of the town of Yucca Valley, approximately three blocks south of the Highway 62 and Geronimo Trail intersection. During the 2019-2020 school year, 657 students in grades TK-6 were enrolled. The demographic composition of student enrollment includes 11.21% receiving special education services and 8.4% qualifying for English learner support. Due to a district-wide nutrition program, 100% of students are eligible for free breakfast and lunch. However, alternative data collected reflects eligibility for free and reduced lunch to be at 83.67%. A state preschool program for children ages 3 and 4 is onsite and available to income-qualifying families. All school staff are committed to celebrating the uniqueness of each child and guiding each child to fulfillment of his or her potential. Teachers work collaboratively to create a student-centered environment, emphasizing the development of reading, writing, and math skills. Our Professional Learning Community (PLC) atmosphere creates team building success for our staff to collaborate effectively and bring success through data-driven planning sessions.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

Stakeholders included leadership team, all staff, and site council. The parent group (FFA), and student group (NEHS) sessions were not able to be held due to school closure. We reviewed LCAP data, SMART goals, and school data to inform our decision making. With the school closure since March 16, 2020 to June 10, 2020 and transition to distance learning, goals will be similar to 2019-2020 because we were not able to complete and assess the 2019-2020 school year.

Conclusions based on this data:

- Our largest student group is White at 46.03%, a slight increase from the previous year. Our second largest student groups is Hispanic/Latino at 43.08%. There has been a slight decline of Hispanic/Latino students over the past two years. There was a slight decrease in enrollment of Asian students by 0.73% and Filipino students by 0.35% . Other groups increased in percentage to 8.09%/ in 2018-2019 other student groups increased in percentage to 9.62, up 1.72% from 2017-2018. The conclusion from this is that we need to ensure that our school culture values and reflects the cultures of all students. We also need to ensure that all of our parents have access to communication and parent involvement.
- Overall, our enrollment has increased to 643 students. We have increased in student enrollment over the past three years.

3. Kindergarten - Student enrollment increased by 30. There was a drop in enrollment by 3 from 16-17 to 17-18 and increased by 15 students from 17-18 to 18-19.

Conclusions based on this data:

1. ELL enrollment dropped by 18 students. Previously, ELL enrollment dropped by 5 from 16-17 to 17-18 and increased by 1 from 17-18 to 18-19. There is a significant change in the percent of ELL students at 8.6%. The percentage has previously remained the same at 12.1%. Fluent English Proficient increased by 1.7%. There was an increase by .9% from 17-18 to 18-19. Reclassified FEP increased significantly to 17.8%. This is an increase of 16.4% from 2018-2019. Previously, reclassified FEP dropped significantly every year from 3.9% in 2017-2018 to 1.4% in 2018-2019.
2. There was a significant increase in students who Reclassified FEP in 19-20 with a total of 13 students. This is an improvement from 3 students in 17-18 and 1 student in 18-19.

Conclusions based on this data:

1. Overall achievement on the CAASP (ELA) rebounded from the 17-18 school year. In 17-18 overall achievement was 24.93. It increased to 35.27 for 18-19.
2. The four major categories for CAASP ELA: Listening, Research/Inquiry, Reading and Writing. Writing continued to be a weakness for our students however in 17-18, 48% of our students were at or above the standard. During the 18-19 school year, although still being the weakest category, students jumped to 55% at or above in this standard.
3. Again, considering the 17-18 year compared to 18-19, we see a jump in the Reading data category. Students reading at or above the Reading standards moved from 53% to 62% for 18-19.

Conclusions based on this data:

1. There were mixed results on the CAASP in math overall between 17-18 and 18-19, with grades 3 and 4 showing strong increases and grades 5-6 showing slight decreases. Problem Solving, and Modeling/Data Analysis had the strongest results and greatest increases. There continued to be struggles and an overall decrease in the area of Concepts and Procedures.
2. Prior to the 19-20 school year, adjustments were made to math pacing to address previous gaps/uncovered standards before testing. Because of the cancelling of 19-20 testing, more data is needed to see if these changes will positively affect results in Concept and Procedures scores.
Concepts and Procedures: The students who were in 3rd grade in 17/18 and 4th in 18/19: at or near standard went from 46.84% to 35.29%. Wondering why the number dropped. However, the number that scored below standard in 3rd and 4th grade has continued decreasing every year, while the percentages below in 5th and 6th have grown.
3. Problem Solving and Modeling/Data Analysis: The numbers that jumped out at me were in sixth grade: % below standard for both the 17/18 and 18/19 school years were well above 60% How can we better prepare these students for the rigor of the 6th grade curriculum, and how can we use the data to better serve our teachers?

Conclusions based on this data:

1. 78.58% are at level 3 and 4 in Overall Language. 84.28% are at levels 3 and 4 in Oral Language. 50% are well developed in speaking and 55.71% in listening. 51.43% are at levels 3 and 4 in writing (30% are well developed). The conclusion is that our EL students need more support in writing.
2. There was a 30% score in 'well developed' for reading as well. There were no scores at beginning except for in reading, which was 27.14%. The 19 students at beginning levels of reading need to be identified and supported.

School and Student Performance Data

Student Population

This section provides information about the school's student population.

2018-19 Student Population			
Total Enrollment	Socioeconomically Disadvantaged	English Learners	Foster Youth
603	86.4	12.1	1.2

This is the total number of students enrolled.

This is the percent of students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.

This is the percent of students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.

This is the percent of students whose well-being is the responsibility of a court.

2018-19 Enrollment for All Students/Student Group		
Student Group	Total	Percentage
English Learners	73	12.1
Foster Youth	7	1.2
Homeless	24	4.0
Socioeconomically Disadvantaged	521	86.4
Students with Disabilities	69	11.4

Enrollment by Race/Ethnicity		
Student Group	Total	Percentage
African American	34	5.6
American Indian	6	1.0
Asian	11	1.8
Filipino	4	0.7
Hispanic	270	44.8
Pacific Islander	3	0.5
White	271	44.9

Conclusions based on this data:

1. Our 86.4% socioeconomically disadvantaged population and 4% homeless population would indicate that we would need to partner with our community resources to help support our students' families in meeting basic needs. Additionally, it may indicate that there is a need for parent education to strengthen families in our community.
2. Our 55.6% non-white student population would indicate a need to be culturally sensitive, understand differing cultural practices and provide the opportunities to celebrate diversity.

Conclusions based on this data:

1. We are in the yellow for academics overall. In 2018-2019 we were in the orange for academics overall. We have improved by one step. We need to identify key areas through data analysis that will focus our progress in moving from yellow and green.
2. Suspension rates are in the red. PBIS needs to be implemented with fidelity for tier 1 and 2.
3. Chronic Absenteeism is in the yellow. In 2018-2019 we were in the red. We have improved by two steps. We need to continue to work on a comprehensive plan using attendance recovery, MTSS, attendance contracts, data and relationships to support attendance. More personnel support is needed to improve Chronic Absenteeism.

Conclusions based on this data:

1. We continue to be below standard in every area with every subgroup. We had an increase in all student groups, except homeless students who declined by 12.8 points and students with disabilities who declined by 32.6 points. In 2018-2019 all student groups declined except for students with disabilities, which increased 14 points. Overall, data needs to be looked at for targeted areas of improvement. We need to analyze if curriculum and instruction are grade-level standards-driven.
2. Students with disabilities are in the red, and other subgroups are in the yellow. In 2018-2019 Hispanic and EL students were in the red, and other subgroups were in the orange. Our special education program needs to be reviewed, data analyzed and intervention planned.

Conclusions based on this data:

1. There was an increase in all subgroups, except homeless and students with disabilities who declined significantly. All subgroups are in yellow, except students with disabilities who is in red. In 2018-2019, all but one subgroup was in the orange. All students increased by 8.1 points. We need to look at data for students with disabilities subgroup in the red and identify target areas of intervention. ALL groups need support and improvement in mathematics.
2. Curriculum and instruction need to be evaluated for standards-based differentiated instruction. Best practice strategies in mathematics needs to be identified in response to this data and teachers need professional development and support in mathematics instruction.
3. Students with significant deficiencies need to be identified and intervention strategies applied.

2019 Fall Dashboard English Learner Progress Indicator

This section provides a view of the percentage of current EL students who progressed at least one ELPI level, maintained ELPI level 4, maintained lower ELPI levels (i.e, levels 1, 2L, 2H, 3L, or 3H), or decreased at least one ELPI Level.

Conclusions based on this data:

- 18 students progressed at least one ELPI level. However, the overall performance level of EL students is low.
- Based on performance, instruction for each performance area should be differentiated according to learners' needs. Our EL support program needs to be analyzed, curriculum and instruction supported for EL students both in the classroom and in IA support.

Conclusions based on this data:

1. ALL students/student groups showed a decline significantly in chronic absenteeism and are now in the yellow level. In 2018-2019, EL and students and students with disabilities were in the orange level and all other groups were in red. There was a decrease in chronic absenteeism ranging from 6.7-9.5% decrease. The percentages of chronically absent range from 5.1% to 19.5%.
2. Foster youth showed an increase in chronic absenteeism by 8.6%. In 2018-2019 the subgroup of foster youth declined 8.2%. This subgroup is 15.8% chronically absent. EL declined by 9.5% and are now in the green level. In 18-19 EI students were in the orange level. Students with disabilities maintained and continue to be in the orange level.
3. With all students in the yellow at 13.8% chronically absent, focused attention needs to be given to attendance. Foster youth needs to be targeted as they are the only subgroup with an increase in chronic absenteeism. Our attendance clerk and MTSS teacher need support in communicating progress and meeting with parents for supports. School-wide attendance awareness needs to be raised and acknowledged through positive incentives, recognition, and awards.

2019 Fall Dashboard Suspension Rate by Year

2017	2018	2019
	6.5	7.6

Conclusions based on this data:

1. The suspension rate for all students increased by 1.2%. In 2018-2019 the suspension rate for all students was maintained with a .1% decrease, but still scores in the red. Suspension rates increased among EL, Homeless, African American, and Hispanic ranging from 0.2% to 8.4%. In 2018-2019 suspensions increased among EL, Foster, Homeless, African American, and Hispanic, ranging from 0.7%-6.3%. Students with disabilities increased by 4.2%. In 2018-2019 students with disabilities declined 4.9%. White students declined by 0.9% and in 2018-2019 and white students declined 1.4%. PBIS continues to need to be strengthened, and behavior patterns analyzed to see if alternates to suspension are possible.
2. Suspension rates by year increased after 2016, but declined slightly in 2018. The decline was not significant. In 2019, there was a slight increase in suspensions by 1.2%.

Goals, Strategies, & Proposed Expenditures

Goal 1

Subject

English Language Arts

Goal Statement

SCHOOL GOAL #1 English Language Arts

55% of K-6 students will read and comprehend grade level texts independently, including subgroups: EL, RSP, Foster, Homeless/displaced, and Hispanic, as measured by the STAR ELA and Early Literacy assessments. 40% of 3-6 grade students will meet or exceed overall ELA standards, including subgroups: EL, RSP, Foster, Homeless/displaced, and Hispanic, as measured by the CAASPP reading assessment.

This goal aligns with MUSD District LCAP goals one and three.

1. Attention will be given to K-3 students in the area of reading by development of Balanced Literacy PLCs, use of STAR, STAR Early Literacy. K-2 will also explore workshop models.
2. All students will be assessed at least quarterly using the STAR assessment to monitor grade level progress. 3-6 grade will also complete CAASPP Interim Assessments. Assessment data will be used to provide targeted, differentiated instruction.
3. Execute an engaging, standards-based, student-centered instructional model, including use of technology as a tool for learning.

LCAP Goal

LCAP GOALS:

GOAL 1: Student learning: Increase academic rigor and student engagement in learning, assess individual student progress and improve performance and close achievement gaps in sub-groups as indicated by multiple data points.

GOAL 2: Effective Instruction, Leadership, and Accountability: Teachers and administrators will utilize best practices, including analyzing data, in order to ensure that decisions are made in the best interest of all students.

GOAL 3: School safety: maintain a safe learning and working environment that supports all students learning.

GOAL 4: Resource Alignment and Stability: recruit and retain effective educators and other necessary personnel to maintain a strong, supportive learning environment for all students.

GOAL 5: Culture, Collaboration, and Communication: create school cultures that are conducive to success for all students by increasing the percentage of parents that are directly involved in their children's education, activities at the school, and parent conferences.

Basis for this Goal

Goal 2

Subject

Mathematics

Goal Statement

SCHOOL GOAL #2 : Mathematics

50% of 1st - 6th grade students will be at or above grade-level in math including subgroups: RSP, Low SES, Foster, Homeless/Displaced, and Hispanic as measured by the STAR assessment. 25% of 3rd-6th grade students will be at or above grade-level in math as measured by the CAASPP

This goal aligns with MUSD LCAP goals one and three.

1. Grade level teams will work on a scope and sequence for mathematics instruction to ensure that all Common Core Standards, processes and procedures are addressed in the academic year.
2. All students will be assessed at least quarterly using the STAR assessment to monitor grade level progress. 3rd-6th grade will use CAASPP Interim Assessments. Assessment data will be used to provide targeted, differentiated instruction for all student groups, including sub groups.
3. Integrated instructional units (performance tasks, projects) will be developed and delivered at least quarterly by each grade level to provide students opportunities for real-world mathematical application and critical thinking/21st Century Skills.

LCAP Goal

LCAP GOALS:

GOAL 1: Student learning: Increase academic rigor and student engagement in learning, assess individual student progress and improve performance and close achievement gaps in sub-groups as indicated by multiple data points.

GOAL 2: Effective Instruction, Leadership, and Accountability: Teachers and administrators will utilize best practices, including analyzing data, in order to ensure that decisions are made in the best interest of all students.

GOAL 3: School safety: maintain a safe learning and working environment that supports all students learning.

GOAL 4: Resource Alignment and Stability: recruit and retain effective educators and other necessary personnel to maintain a strong, supportive learning environment for all students.

GOAL 5: Culture, Collaboration, and Communication: create school cultures that are conducive to success for all students by increasing the percentage of parents that are directly involved in their children's education, activities at the school, and parent conferences.

Basis for this Goal

2017-2018 District wide Benchmarks, STAR Math assessment, CAASPP results

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
STAR Math Assessment - Quarterly	Feb/Mar STAR Assessment At or Above (level 3 or 4) Overall Average 47.50% Grade 1 -55.5% Grade 2 -49.3% Grade 3 -52.3% Grade 4 -45.3% Grade 5 -43.6% Grade 6 -39%	Nearly all grade levels were near 50%. It is expected that we will reach 50% at or above grade level standards.

Metric/Indicator	Baseline	Expected Outcome
CAASPP Overall Achievement 3rd-6th	Overall Achievement Standard Met or Exceeded 2018-2019 - Overall Average 20.85% Grade 3 -39.75% Grade 4 -23.53% Grade 5 -9.58% Grade 6 -13.95%	Each 3-6 grade level will increase by 8% from the previous year, bringing our average from 20.85% to 25% or more at the meet or exceed grade level standards.

Annual Review and Update

SPSA Year Reviewed: 2019-20

Goal 1

SCHOOL GOAL #1 English Language Arts

55% of K-6 students will read and comprehend grade level texts independently, including subgroups: EL, RSP, Foster, Homeless/displaced, and Hispanic, as measured by the STAR ELA and Early Literacy assessments. 40% of 3-6 students will read and comprehend grade level texts independently, including subgroups: EL, RSP, Foster, Homeless/displaced, and Hispanic, as measured by the CAASPP reading assessment.

1. Attention will be given to K-3 students in the area of reading by development of Balanced Literacy PLCs, use of STAR, STAR Early Literacy and common assessments (ex. running records, word lists) to guide instruction.
2. All students will be assessed at least quarterly using the STAR assessment to monitor grade level progress. Assessment data will be used to provide targeted, differentiated instruction.
3. Additional school supports, along with grade-level Common Core instruction, will be provided for student groups including foster youth, English Learners, and students designated as low socio-economic status.
4. Execute an engaging, standards-based, student-centered instructional model, including use of technology as a tool for learning.

Annual Measurable Outcomes

Metric/Indicator	Expected Outcomes	Actual Outcomes
STAR Independent Reading Scores Quarterly STAR Early Literacy Scores for K-3, or as appropriate for reading levels.	Quarterly growth towards meeting goals. By the end of the 2019-2020 AY, each grade level will show growth by 10-15% to average 55% minimum on STAR Results.	Due to school closure, fourth quarter testing was not administered this school year.
CAASPP Results ELA/ Reading for grades 3-6	Reading scores at or above standard will increase by 10-15%, showing growth in reading.	Due to school closure, state testing was not administered this school year.
ELPAC Results in the Reading Domain	The number of students scoring in the well developed range will increase by 10%, from 30% to 40%.	Due to school closure, state testing was not administered this school year.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All grade levels participated in the School House Project to target and increase in ELA/Reading. All grade levels participated in monthly release time to review data and instructional planning. Students in grades second through sixth participated in three quarters of after school tutoring. Students in first grade participated in before school tutoring to target ELA/Reading needs.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Due to school closures, testing was not able to be administered. Thus, the overall effectiveness of the strategies/activities is unable to be measured.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Due to school closures, the proposed expenditures is higher than the actual expenditures. Substitutes were not needed after March 16, 2020 for professional development or release time.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Testing next school year will allow the overall effectiveness of the strategies/activities to be measured.

Goal 2

SCHOOL GOAL #2 : Mathematics

30% of 1st - 6th grade students will be at or above grade-level in math including subgroups: RSP, Low SES, Foster, Homeless/Displaced, and Hispanic as measured by the STAR assessment. 25% of 3rd-6th grade students will be at or above grade-level in math as measured by the CAASPP

1. Grade level teams will work on a scope and sequence for mathematics instruction to ensure that all Common Core Standards, processes and procedures are addressed in the academic year.
2. All students will be assessed at least quarterly using the STAR assessment to monitor grade level progress. Assessment data will be used to provide targeted, differentiated instruction for all student groups, including sub groups.
3. Integrated instructional units (performance tasks, projects) will be developed and delivered at least quarterly by each grade level to provide students opportunities for real-world mathematical application and critical thinking/21st Century Skills.

Annual Measurable Outcomes

Metric/Indicator	Expected Outcomes	Actual Outcomes
STAR Math Assessment - Quarterly	Each grade level will increase proficiency by 12-22% from the previous year. The average grade level proficiency should be 25%-35%.	Due to school closure, fourth quarter assessments were not administered.
CAASPP Overall Achievement 3rd-6th	Each 3-6 grade level will increase by 8% from the previous year, bringing our average from 18.15% to 25% or more at the meet or exceed grade level standards.	Due to school closure, state testing was not administered this school year.

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 4 Classroom Teachers
- 2 Other School Staff
- 3 Parent or Community Members
- 0 Secondary Students

Name of Members	Role
Jacqueline Herrera	Parent or Community Member
Amanda Padilla	Parent or Community Member
Thalia Ormiston	Parent or Community Member
Cindy Harmon	Classroom Teacher
Carrie Cole	Classroom Teacher
Kathy Siddons	Classroom Teacher
Kristen McCarrick Non Voting	Classroom Teacher
Celeste Wahlberg	Principal
Megan Ripley	Parent or Community Member
Wendy Massey (CSEA non-voting)	Other School Staff
Suzanne Conway EL Coordinator Non Voting	Classroom Teacher

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature

Committee or Advisory Group Name

English Learner Advisory Committee

Gifted and Talented Education Program Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on February 11, 2021

Attested:

Principal, Celeste Wahlberg on February 11, 2021

SSC Chairperson, Carrie Cole on February 11, 2021

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

Planned Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

Annual Review and Update

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

Budget Summary and Consolidation

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- **Total Funds Provided to the School Through the Consolidated Application:** This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- **Total Funds Budgeted for Strategies to Meet the Goals in the SPSA:** This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

Consolidation of Funds

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

Appendix A: Plan Requirements for Schools Funded Through the ConApp

Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Review and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).

Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will
 - a. provide opportunities for all students, including socioeconomically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and English learners, to meet the challenging state academic standards.
 - b. use effective methods and instructional strategies based on scientifically based research that
 - i. strengthen the core academic program in the school;
 - ii. provide an enriched and accelerated curriculum;
 - iii. increase the amount and quality of learning time;
 - iv. include strategies for meeting the educational needs of historically underserved populations;
 - v. help provide an enriched and accelerated curriculum; and
 - vi. are consistent with, and are designed to implement, state and local improvement plans, if any.
 - c. address the needs of all students in the school, but particularly the needs of those at risk of not meeting the challenging state academic standards, through activities which may include the following:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
3. A description of how the school will ensure instruction by highly qualified teachers and provide ongoing professional development, including
 - a. strategies to attract highly qualified teachers;
 - b. providing high-quality and ongoing professional development that is aligned with the state's academic standards for teachers, principals, paraprofessionals and, if appropriate, pupil services personnel, parents, and other staff, to enable all students in the school to meet the state's academic standards;
 - c. the devotion of sufficient resources to effectively carry out professional development activities; and
 - d. the inclusion of teachers in professional development activities regarding the use of academic assessments to enable them to provide information on, and to improve, the achievement of individual students and the overall instructional program.
4. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
5. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - a. Ensure that those students' difficulties are identified on a timely basis; and
 - b. Provide sufficient information on which to base effective assistance to those students.
6. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
7. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
