STATEMENT OF FINANCIAL NEED

Costs for the first two years at a community college are approximately \$_____ per year, living off campus. We currently have one daughter who is attending college full-time and living away from home. We contribute substantially to her support and feel that we will be able to afford an additional \$ _____ per year to a second college programs.

_____ (student) plans to work part-time in order to take care of some of his/her personal expenses and hopes to contribute approximately \$ _____ per year toward that end; however, the burden of the major expenses will fall to us. With college costs rising each year, any assistance by way of scholarship monies will be of great help in furthering _____'s (student) college education.

Sincerely,

(Parent's Name and signature)
